## How much does a kirby vacuum cleaner cost

How do I know I can trust this review on Kirby Vacuum Cleaners? How do I know I can trust this review about Kirby? 2,839,952 reviews on ConsumerAffairs confirmed. We need contact information to make sure our reviewers are real. We use intelligent software that helps us maintain the integrity of reviews. Our moderators read all reviews to verify quality and help. For more information on reviews ConsumerAffairs.com visit our FAQ. Henry of Hummelstown, PA Verified Reviewer Origin review: Jan. 4, 2021If you appreciate well-built products, engineering and never plan to buy a vacuum again for the rest of your life, then Kirby is for you. My kirby has the power to lift my carpet off the floor, it makes our lower plastic vacuum look distressing in terms of suction and volume of air. Nothing cleanses like Kirby.Although it seems heavy, in reality it's made of actor aluminum and light. Little Noxon Polish metal polishing keeps out defects and self-pronponent shipping makes navigation easy. A of Sacramento, CA Verified Reviewer Origin: May 8, 2020This is the king of the vacuum. It handles small linoleum until the carpet cleaning of the large carpet area. Love this vacuum, make a mistake and buy the Devil Dirt when a 30-year-old Kirby had to continue to get bearing replaced and I couldn't afford to replace it. I was then able to fund a new Kirby so Dirt Devils that isn't a good vacuum cleaner has absolutely gone into a pile of rubbish and I've had a new Kirby for 14 years now without any services needed on it whatever it is and it works as if it's new! Won't have anything but Kirby!J. of Morgantown, WV Verified Reviewer Origin: May 7, 2020Our Kirby is a really solid product. This suction vacuum is the best we've ever seen. It's amazing and there's an attachment to everything. We use it mainly on wooden floors throughout our house. When we want a really thorough cleaning we use it for under bed and furniture. Very impressive how strong it is. Kirby's bag has multiple layers and no dust escapes from it. Our kirby rolls easily and has light that helps detect dirt or dust. The only downside is it's quite noisy. Jeanette from San Diego, CA Verified Reviewer Origin review: April 27, 2020I got my Kirby over 30 years ago as a present from my mother-in-law over 20 years ago. I have a lot of vacuums that I bought in more than 40 years of my marriage. Everything else fell apart or broken while my Kirby kept running. Attachments are very solid. Although new replacement parts are made Hard plastic older attachments are sturdier, they are more flexible not so strocky. I noticed that the replacement part strozen, because less gives, cracked easier. I had hard floors and it was nice on the floor, when I was carpet attachment shampoo cleaner carpet well. Upholstery attachments work well. I love my Kirby. It's really solid. It's heavier than many others This is because it has a great motor. I believe that's why it has lasted so long. Kathleen of Glendora, CA Verified Reviewer Origin review: April 23, 2020I like vacuum suction power, however just hopes it could be lighter. It's too heavy but motor figures need to get a big puff. I'm not crazy about the mopping floor because it's more of a hassle than a regular mop or hand mopping. I like the carpet cleaning capabilities however hope dirty water reception is deeper to hold more water. If you do not always empty the receptacle it will defecate back onto your clean carpet. Liliana of Clinton, MA Verified Reviewer Origin review: Sept. 14, 2020Disgusting business tactics. Their independent distributors bothered me for weeks so I would allow him to come in doing my supposedly free house cleaning. They say that a friend has given me free cleaning. I finally accepted that turned out to be a big mistake. He was in my house for 3 hours!!!! By phone they say that it will only take 1 hour and that it is not a sales pitch. After this 3 hours, I agreed to get a vacuum, but as explained, I could reinstate it if I changed my mind. He makes it sound as if the return period is 30 days! My financial situation has changed and I can't use a vacuum because it's so complicated to unite! For a company that has been around for so long, I would think that you are more accountable and honest. I need to someone to get back to me about returning this vacuum and this distributor has to stop bothering my friends as well. My friends always call me to tell me how they won't take answers! I will lodge a complaint with the Federal Business Bureau. Read Samuel's full review of Aurora, CO Verified Reviewer Origin: Sept. 8, 2020A Kirby salespecue came to my house and left a dirty filter across the floor. When asked whether he would pick those he told me no and left. This is after writing feedback on the form. To this point he is polite and professional. I can give pictures of the mess as well as the salespers and drivers who take it from my home. Given the highly untraded nature of the salespeader I can only imagine what customer service with the actual machine would be like. Patsy of Billings, MT Verified Reviewer Origin: August 13, 2020This is so awkward and difficult to change the power head. I have to put it on the counter to change it and get it on the right. It gets pet hair and dirt, but it's not worth the fight at all. Everything Kirby took time and whined to me. Jessica from Midlothian, TX Verified Reviewer Origin review: Jun 10, 2020A rep. from what I consider to be a local dealer, called me to schedule a free demonstration. They offered to clean the floor of any cubicle of my choice in our house, as best as the one with the highest traffic, so that they can show me how far the product works. I agreed because I was in the market for a new vacuum because it appeared shark 5 years I was running its course. I would also like to get a carpet cleared in all my 4 bedrooms but haven't found anyone I feel reasonable for a one-off job. However, fast forward to this day, sales reps come to our homes at the scheduled time. He was very nice and showed the product well. It takes a few hours but that's expected because all the moving parts and things this system can do. We were pretty impressed that we wanted to buy. She handed us a double sheet with a price amount of \$2995 and broke for payment options then called the woman in charge. We told him that the options on the paper were not within our budget so they asked for our ideal payment arrangements. We tell them and just as they agree! They also told us they would lower the price to \$1700. I was excited because I felt like I got a deal mainly because I knew this particular product was used to. The representative made a statement of how they used disposable filters so they didn't bring dirt from home to home using bags that you usually attach. We agreed to fund for 36 months at about \$65 a month with \$100 down. It was all good until I saw the suggested retail price on the side of the box....\$1749. Finally, we will pay the full price for the product. However, that's not a problem. The issue is the fact that I think they give us a discount when in reality they gouging prices to make us think we get a discount. Mind you, this is the product used. One that has been used may be in some houses every day for demonstration purposes and you will try to sell it to us at a full price. I ask people a sale of why they are trying to sell products to us for a retail price of \$1200 more than the suggested retail price. The answer is, my boss just tells me that we have to be paid somehow. I asked him to call his boss... the same woman who agrees to our payment arrangement terms ... because I wanted to ask himself and hear him give me the same response. She called her and apparently she might have text her before calling her to give a head but when she replied I asked her to put the woman on the speaker the woman declined to state that her background was strong and I wouldn't be able to hear it. This is funny because I felt like if a sales rep could hear it then could I but, however, I kept asking why they were The prices are gouging and they keep giving me comparisons with cars and other items sold in stores above the suggested retail price. I keep telling them that stores don't sell goods for more than half of the suggested retail prices. I know that this product is not worth the suggested retail price but I hope it will be proven over time with a lifetime guarantee. After going back and seeing how to The woman at the other end of the phone was I decided not to move forward with my consent to buy the Kirby vacuum and instead chose to sign the bottom of the paper to cancel my deal. I took it myself to also call the company they reached for funding so I can make sure they don't send me any documents or payment paperwork related to this product. I told them I decided to sign the bottom of the app basically releasing any agreement that was made before. I was disappointed because I felt like I was almost making a stupid decision that allowed someone to get over at me to fill their own pockets. And based on other reviews, they make it very difficult to get out of contract even if you change your mind within 3 days of being allocated. I work in a law firm that fights this thing... It's unethical ... It's cheating ... It's scam! The Times is pretty hard in this current situation and, because I'm sure others feel, we work hard for our money. We didn't want to feel like someone was getting more on us or taking advantage of us when we decided to invest ... especially when the seller is only an increasingly paid concern rather than focusing on customer/customer satisfaction. I would definitely discourage anyone I know from being scammed to buy this product!! Read the full review of Ellen of Loveland, CO Verified Reviewer Origin: May 15, 2020My Kirby has a really good puff. That's why buy it after comparing it to a vacuum. I have both pets and stairs and need something that will work for both. I only need a small fix since buying it. The bag is easy to remove and replace. Next
