

I'm not robot!

I made this lesson for my students that needed to learn about receiving monthly paychecks and budgeting all items. This is great for students that aren't working yet, and don't have paychecks or bills, but may have them in the very near future. Your student can learn about hourly wages, gross income, net pay, income deductions, taxes, monthly bills (rent, Netflix, phone bills, etc), savings account, and much more. This packet includes: 12 Paycheck Stubs (January to December) 12 Sets of Bills (9 bills) Page 21 made this lesson for my students that needed to learn about receiving monthly paychecks and budgeting all items. This is great for students that aren't working yet, and don't have paychecks or bills, but may have them in the very near future. Your student can learn about hourly wages, gross income, net pay, income deductions, taxes, monthly bills (rent, Netflix, phone bills, etc), savings account, and much more. This packet includes: 12 Paycheck Stubs (January to December) 12 Sets of Bills (9 bills) Page 3 Life Skills Reading and Math: Budgets, Unit 1 by | Budgets | Math | Life Skills | Reading | Writing | REAL WORLD | Unit 1 | Budgets are an essential life skills that many students unfortunately have not mastered. Since they are such an important facet to living an independent life, it is important students are able to comfortably learn to manage them on their own. With this download, students have the chance to do just that! With a strong emphasis on real world learning, things like shopping, needs vs. wants, dining out, and much more are all covered! * SUPER BUNDLE SAVINGS! * 668 Life Skills GOOGLE SLIDES! * Colorful & Interactive * Practical Activities that focus on Using a Bank Account, Checkbook, Credit Card, Budgets, Finding Bargains and more! With this easy-to-use program you'll have everything you need for your life skills program, financial literacy or consumer math classes! And best of all, these high-quality lessons are ready-to-use! Check out the individual Product Previews to see tons of sample slides! EASY TO USE This is Your Life - Budgeting Activity by A fun budgeting activity where students get to 'choose their own life' based on their weekly income and expenses. Teach your students the importance of budgeting and saving while planning for everyday expenses and occasional luxuries. This activity is designed to teach budgeting and money management with students in middle primary. It can be used as a maths lesson or during humanities when covering economics. It is also a handy tool to begin discussions about poverty and inequalities in modern Engage your students and broaden their personal financial literacy with the various activities included in this GROWING bundle. The activities included will assist students to make real-life choices about things like insurance, groceries, utilities, purchasing a vehicle, etc. based on their income. Mix-and-match the activities to give your students a comprehensive look at the costs of living on their own! Check out the FREE previews of each individual product included! © The Classroom Sparrow This math PBL project-based learning activity uses a variety of worksheets to teach students about budgeting money. Use this resource to teach your students about money and personal finance in 4th, 5th, 6th, and 7th-grade students. Students will learn about budgeting by planning a vacation with this real-life scenario math project. This product contains printable and digital versions (Google Slides). To purchase separately, see the links below: * Math project - Plan a trip using a budget - PRINTABLE Exponential Functions and Their Applications to Financial Situations Life After College Budget Project This project is one of the best things that I do. I have used it for several years and it has undergone several revisions. I use it primarily with my Pre-Calculus students but have used it with Algebra 2 with very good results. A co-worker, Dave Roberston also a TPT contributor, created a spreadsheet for making the grading easy to do. I have this available for download as well but could not budgeting and Money Skills For Secondary Life Skills Students by Contains: two 12 slide PowerPoint Presentations with animation and 22 pages of student worksheets and activities. Answer keys included! Each PowerPoint is a whole class activity in which students follow a character throughout their day and the various money transactions made. Students keep track of each character's income and expenses on corresponding budgeting charts. The following unit vocabulary and concepts are taught: budget, budgeting, income, expenses, balance, various ways people get Game of Life- budget simulation by Sarah's Science and More Store! In just one class period, your students will not only understand the importance of creating and sticking to a budget, but also practice creating one! Students are randomly given a "career card" with correlating annual salary and average student loan debt, if applicable. - They will then use a chart to determine how much of their salary will be taken out in the form of federal tax withholding, state tax withholding, social security, and medicare. - They'll then be given a set of choice cards (Price is Right - budgeting game) My Business and Financial Literacy students love playing this game! See how well your students know the price of everyday products with this fun Price is Right budgeting game! I place students into groups, each having a whiteboard (a piece of paper works, too). After viewing the product and product description on the PowerPoint slide, they collaborate to determine the correct price. All groups reveal their guess at the same time. "The actual price of the product is..." Closest team gets a Types: DIGITAL RESOURCE; BUDGETING: FINANCIAL LITERACY; GOOGLE DRIVE; GOOGLE SLIDES (EDITABLE) Have your students go digital with this fun unit on budgeting that features interactive activities to enable students to plan a budget taking into account earned income, expenses, and a short-term spending goal. This resource is completely editable giving you the flexibility to modify it to suit your students' needs. You will be able to change spellings, currency format and other written content by overwriting Page 4 This bundle features eight currently available budget lessons, with more to come! Students will be accounting for a varied individual's finances, and scenarios. There are so many functional life skills tied in to this unit, and it is so wonderful! Students will work on paying bills, filling out checks, completing a transaction registry for both income, and bills, complete an end of the month summary, determine a grocery budget for the following month, and more! This is such a wonderful skill for Page 5 Save by purchasing this bundle! It includes the Budget and Checking Account lessons! Each lesson includes all of the print materials for a Budget and Checking Account Unit designed for a consumer math class. Both sets include materials for five days of lesson plans, topic flow chart, brain teaser, student notes cover page, 1 page reading passage, comprehension questions, writing prompt to activate prior knowledge, two levels of notes (differentiated), a more specific notes worksheet with visu Page 6 Increase higher-order thinking in your Personal Finance course by having students apply, analyze, and evaluate information. This EDITABLE Microsoft PowerPoint Presentation contains 12 scenarios that make great classroom discussion. Topics covered include: saving up for a purchase, budgeting, overdraft protection, simple interest, types of bank accounts, depository institution features, and saving strategies. In my classroom I have individual marker boards so I like to have each student answer t Page 7 Practice money and budgeting skills with this functional unit for special education. This unit includes three differentiated levels with worksheets, task cards, and materials for simulation in the classroom. Students practice locating items & item prices, determining if they have enough money, adding prices, and making purchases. I've made it easy for you to print & start using with instructions, sample IEP goals, data sheets and student learning objectives. This is a must have resource Page 8 About This Lesson This board game led to hours of fun as students did some #adulthood in class! There were some "but that's not FAIR!!" comments, along with, "REALLY? I have to pay for that?!", and, my favorite, "I have to pay this bill EVERY MONTH! That's stupid!" This board game has 30 spaces - one for each day of the month. As students move through the game, they'll pay bills, have opportunities to do fun things (that they have to pay for!), and face unexpected events that could help or hurt t Page 9 Here are 4 math activities involving budgeting, unit pricing, rounding to the nearest penny, and more. In today's financial climate, consumer math is critical! Three fun, challenging explorations involving a camping trip, a day at the mall, and a late night visit to greasy spoon diner. An 8 question problem solving assessment with an answer key is included. I used these with my 6th graders, who needed a little help but enjoyed them! I will send you a zip file with all of the files in Word and Page 10 Printable & Digital Unit Price Project (EDITABLE) - Life Skills, Budget, Shopping, Money in the Real World Math. This is a perfect end of the year, back to school, math centers, summer camp, or summer school math activity to practice unit price calculation, finding percent of a number, markup calculation, comparing and rounding decimals, money management, adding, subtracting, multiplying, and dividing decimals. It is a math project designed for students to complete independently or with a gro Page 11 When your students have mastered making simple patterns but you don't have the budget to buy a bunch of new materials, get new life out of those old cubes with these building mats. Ten colorful pictures include a butterfly, jet plane, flower, rocket ship, American flag, house, 'bat signal', superhero shield, and rainbow heart. Works with any three-quarter inch cubes such as snap, mathlink, multilink, or unifix. Download, print, and laminate or place in plastic protective sleeves for dura Page 12 Students will love planning their very own Thanksgiving meal through this PBL. Skills Included: estimation, addition, subtraction, multiplication, budgeting, division, determining unit cost, utilizing real life materials (grocery ads), decimals as money, explaining math reasoning, problem solving, and art! For Students: Your job is to plan a Thanksgiving meal for eight people. Use the grocery store ads to plan and budget for your meal. You must keep your meal within a \$75.00 budget. You Page 13 Personal Finance BUNDLE, Personal Finance Curriculum BUNDLE Print & Digital Distance Learning, Print and Google Classroom Links for Activities Personal Finance Activities: Budgeting and Money, Credit, Buying a Car, Getting Insurance, Paying for College, Applying for a Job, Getting Your Own Home, Paying and Filing Taxes Personal Finance: Budgeting and Money, Credit, Buying a Car, Getting Insurance, Paying for College, Applying for a Job, Getting Your Own Home, Paying and Filing Taxes Guided Page 14 Use this fun set of composer cash to create a fun incentive program for your class, or as a cross-curricular activity about economy, budgeting, and saving money! Print onto colorful or white card stock, laminate, and cut out. Then you can use the money as rewards, students can go "shopping" in the treasure box, and so much more! Includes: 36 composers 6 different US bills (\$1, \$5, \$10, \$20, \$50, \$100) 6 different colors (orange, green, purple, yellow, blue, and red) Black and white pages of each in Page 15 This workbook contains Strand F: Financial Literacy worksheets for the new 2020 Grade 8 Ontario Math curriculum. This workbook contains explanation worksheets, activity and practice sheets, a quiz, a budgeting assignment, and a culminating unit test. Topics include budgeting, methods of payment, cryptocurrencies, currency conversions, simple interest, compound interest, and financial literacy skills. This workbook includes check-ins that integrate the social-emotional Page 16 Engage your students in course content with this relatable, food truck-themed project. This product incorporates many aspects of the business world including: marketing, finance, sales, advertising, business pitches, business plans, budgeting, social media, etc. This is a semester long business simulation project meant to accompany a high school business course such as Introduction to Business and Marketing, Entrepreneurship, Business Essentials, or Marketing I. For this project I split up the s Page 17 This workbook contains Strand F: Financial Literacy worksheets for the new 2021 de-streamed Grade 9 Ontario Math curriculum (MTH1W). This workbook contains explanation worksheets, activity and practice sheets, a quiz, a budgeting assignment, and a culminating unit test. Topics include budgeting, simple interest, compound interest, appreciation/depreciation, down payments, and financial literacy skills. This workbook includes check-ins that integrate the socioemotional learning expectations of th Page 18 PBL Activity (area, perimeter, fractions, decimals, mixed numbers, unit price). Students can plan different kinds of parties: New Year's Party, 100th Day Party, Mardi Gras Party, Carnival Party, or Birthday Party. Printable & Digital (EDITABLE). Students will plan and host a party. They have a budget to spend on renting a party room, decorations, gifts for guests, food, and attractions. Every choice matters, so they need to spend their money wisely to plan their dream party. This project cove Page 22 This financial literacy word wall shows vocabulary and concepts in action and in the context of related words. With references for sales tax, gratuity, discounts, unit price, percent change, credit score, income tax, filing federal tax returns, mortgages, paychecks, budgets, fixed and variable expenses, checking accounts, checks, savings accounts, exponential growth, compound interest, simple interest, financing a car, amortization, down payments, front-loaded interest, interest rates, owning a Page 23 This workbook contains Strand F: Financial Literacy worksheets for the new 2020 Grade 5 Ontario Math curriculum. This workbook contains explanation worksheets, activity and practice sheets, quizzes, a payment methods assignment, a financial goal assignment, a unit rate assignment, and a culminating unit test. Topics include payment methods, calculating HST, budgeting, financial goals, unit rates, taxes, and government services. This workbook includes check-ins that integrate the social-emotional Page 24 Classroom Theme: HALLOWEEN / OCTOBER Decor, Editable Printables, Organizational Tools, Classroom Essentials and More! Includes 34 products for only 35 cents each! Do you want to create a beautiful, organized learning environment that will impress students, parents, colleagues and administrators? This low cost, high-quality packet will help you do that on a budget. *****Included in this 200+ Page Packet. . . * nameplates / de Page 25 Make your third grade social studies economics unit a little more fun! Middletown Market is a marketplace full of goods and services and other economic topics. All activities are built upon the market. There are lessons, hands-on activities, task cards, posters, vocabulary and practice pages. There are activities on goods and services, producers and consumers, budgets, opportunity cost, scarcity, decision making, incentives, economic competition, supply and demand and types of resources. A short i Page 26 A virtual field trip narrated as a social story. Help ease the uncertainty and prepare your students with direct social skills instruction that is beneficial to students with special needs or autism. Discusses basic banking vocabulary (cash, check, bank accounts, saving account, checking account, interest, withdraw, deposit, direct deposit, mobile banking, account balance, debit card, ATM, loan, credit card, budget and more!). This simplified story also discusses earning money, how to make a d
